

## 2017 Annual Work Plan between UNFPA and the Center for Health Development

**Country:** Mongolia

**Implementing Partner:** The Center for Health Development

### UNDAF Outcome(s)

By 2021, the poor and vulnerable population benefit from better social protection and are able to increasingly utilize quality and equitable basic social services, with a special focus on water, sanitation and hygiene.

### Expected Programme Output(s)

CPD6 Outcome 2: Increased priority on adolescents, especially on very young adolescent girls, in national development policies and programmes, particularly increased availability of comprehensive sexuality education and sexual and reproductive health.

CP6 Output 1: Enabling policy and regulatory environment is enhanced for adolescents and youth to benefit from quality sexual and reproductive health services.

Telemedicine exit phase project outcome: Maternal and newborn health is improved through the health technology innovations in Mongolia.

Specific Objective 1: To consolidate the MnObstetrics eHealth platform into national eHealth systems, and to institutionalize teleconsultation and eLearning platforms

Specific Objective 3. To strengthen policy and financial environment for sexual and reproductive health through a telemedicine network in Mongolia

**Programme Cycle:** 06

**Start Date:** 2017-07-01

**End Date:** 2017-12-31

### Brief Summary of Activities

Task 1.2. Mobile Health (mHealth) applications are used for project target groups, including health service providers

1.2.1 Develop and adapt mHealth application for pregnant women and service providers (including midwives) for safe motherhood and SRH

- Develop content of mHealth application for smart phones (service providers and mothers)
- Development and validation of applications

1.3.1 Upgrade the NCMCH training unit to a e-learning center for OBGYNs, neonatologists, midwives, nurses and youth clinic doctors

- Upgrade eLearning platform with eMidwife, Neonatologist and CME ePortfolia for revalidation to assure OBGYN doctors and midwife are up to date and fit to practice

Task 3.1: Policy and regulatory environment on quality MCRH, including telemedicine services, are improved

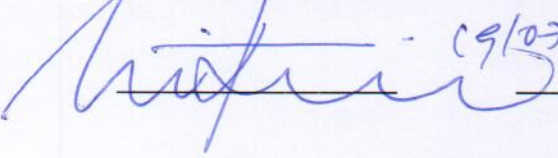

- Technical assistance on technological assessment and developing costing tools for further increase of MCH care budgeting
- Equipment Assessment and national inventory tracking system advocacy

**Estimated Total WP Budget (all years): 84,953,000 MNT**

<b>Regular:</b>	0	<b>Allocated Resources by Year*</b>
<b>Government:</b>	4,247,650	<b>2017:</b> 84,953,000
<b>Other:</b>		
Telemedicine project funded by Luxembourg government LUA47	84,953,000	

\* Amounts for subsequent years are subject to the availability of funds.

NAOMI KITAHARA, REPRESENTATIVE      Date
